

✉ eden.vandewatyne11@gmail.com
📅 Schedule: 1 sem. / 3 sem.
📍 Île-de-France, France / Remote
☎ +33 7 77 78 08 93

Technical Skills

- **Programming Languages** : Python, SQL, JavaScript, HTML/CSS, Java, C#
- **Web & backend** : HTML5/CSS3, JavaScript (DOM), PHP, Python (scripts & server)
- **IA & Machine Learning** : TensorFlow, PyTorch, Scikit-Learn, NumPy, Pandas
- **Databases** : MySQL / SQL
- **Tools & IDEs** : VS Code, PyCharm, IntelliJ, Postman, Docker, PowerBI
- **Version Control** : Git, GitHub
- **Cloud & Hosting** : Cloudflare, Railway, Microsoft Azure, AWS

Certifications

Jun 1, 2026 - Harvard University : CS50's Introduction to Programming with Python (CS50P)

Dec 10, 2025 - BRISCC : Certificate of Competency in Basic Operations of Smart Logistics Facilities and Equipment

Feb 12, 2025 - CCNA : Enterprise Networking, Security & Automation

Languages

English
Spanish
Chinese

Eden VANDEWATYNE

ESGI apprenticeship – Full Stack & AI Developer

Passionate about software development and new technologies, I am seeking a work-study program to combine academic learning with professional experience.

Education

Bachelor's Degree in Artificial Intelligence and Big Data

October 2026 [ESGI](#) Paris, France

Study of AI and Machine Learning algorithms, Deep Learning, advanced Python, Big Data (Hadoop, Spark), Data Engineering, Data Mining, Cloud Computing, SQL and NoSQL databases, Business Intelligence, Data Visualization, Natural Language Processing (NLP), hands-on Artificial Intelligence projects, Agile methodologies (Scrum), model optimization, and predictive analytics.

Bachelor's Degree in Data Design and Applications

Since 2024 [ESTIAM](#) Paris, France

Mobile application development, Java, C#, advanced JavaScript, Business Intelligence, Agile methodologies (Scrum), data analysis, DataOps, BI, ETL & data marts, advanced analytics, data science, and machine learning.

Work experience

Full Stack Developer Internship

From July 2025 to August 2025 [Eight Bamboos](#) Paris, France

Development of a browser-based game as a full-stack developer.

- Backend development in Python for game logic, data management, and server-side interactions.
- Frontend development in **JavaScript** for the user interface, game interactions, animations, and 3D modeling using **Three.js**.
- Collaborated with the team to improve user experience and optimize game performance.

Order Picker and Delivery Driver

Since January 2025 [AuchanRETAIL](#) Meaux, France

Part-time student job at Auchan Retail Drive.

- Order picking and preparation of customer orders.
- Delivery of customer orders.
- Welcoming and assisting customers during order pickup.

Personal Projects

Professional portfolio website | eden-vandewatyne.com

From November 2025 to February 2026 [Personal project](#) Paris, France

- Design and development of a showcase platform presenting all my technical projects.
- UI/UX optimization and integration of interactive projects.

Natural ecosystem simulation – Neural Networks

Since March 2026 [Personal project](#) Paris, France

- Development of a project simulating the life and evolution of autonomous entities using **neural networks**.
- Implementation of **Reinforcement Learning** and **Deep Learning** algorithms for agent decision-making.
- Use of **Python** for backend logic and predictive model management.
